DLA Pre-Nursery Playgroup prepares your child for the first year of Kindergarten. They will experience the actual routine of Kindergarten but with the security of a parent or guardian nearby. Through fun games, activities, music, story time and snack time, children learn to share, take turns, self-care and stress reduction. They develop math, language, focus, critical thinking, and sensory perception. Your kids will have the right skills to confidently enter their first school years. To avoid food allergies, students will bring their own snacks.
